---

---

### TECHNICAL SKILLS

---

**Programming:** Python, PySpark, SQL, R | **Data Platforms:** Snowflake, Databricks, AWS, Spark

**Engineering:** DBT, ETL/ELT, Data Modeling | **BI Tools:** QlikSense, MicroStrategy, Power BI, Tableau

---

---

### PROFESSIONAL EXPERIENCE

---

**The Travelers Companies Inc.** | Hartford, CT / Boston, MA | *BI&A Leadership Development Program*

**Data Engineer** | Dec 2025 – Present

- Built production ML pipeline in Databricks processing millions of customer records for cross-sell deployment
- Engineered PySpark transformations with Snowflake integration and automated data quality checks
- Designed dual-environment deployment (test/prod) with AWS S3 data lake and secure credential management
- Partnered with data science team to operationalize models, establishing reusable MLOps deployment patterns

**Senior Consultant, People Analytics** | Feb 2025 – Dec 2025

- Deployed 3 production dashboards (QlikSense/MicroStrategy) recapturing **100+ hours annually**, presented to CFO
- Led data modernization migrating 4 executive dashboards from flat files to Snowflake, reducing manual overhead
- Built Snowflake views using DBT for Fieldglass workforce data with complex JSON parsing and transformations
- Managed summer intern and led BI&A Community of Practice during leadership transition

**Senior Consultant, Tech & Ops Finance** | Jun 2023 – Feb 2025 | *Extraordinary Performance*

- Developed DBT pipelines and Jenkins CI/CD workflows for 80-person team's cloud migration to AWS/Snowflake
  - Co-led Fieldglass data acquisition, defining technical requirements and building enterprise data models
  - Created FinOps framework and cost monitoring dashboards; presented efficiency gains to senior leadership
  - Conducted enterprise-wide GenAI and data modernization training across multiple organizations
- 
- 

### EDUCATION
